*The mission of the Community Services for Sight is to help blind and visually impaired individuals achieve the best possible quality of life by providing education, support, and instructional services and to prevent vision loss through education and early detection for people of all ages. Vision loss often distances the vision impaired from others, from daily routines, from actively participating and communicating.*

*We listen to the frustrations, fears, and feelings and work with customers through support services and prevention of blindness programs. We also offer summer day camps for children, Transition Assistance Programs and programs for blind and vision impaired Veterans.*

*Children with disabilities face many threats to their general welfare, as well as barriers that limit opportunities for success. Our Transition Assistance Program and Summer Camp teaches children and young adults to be independent, assists in building relationships, learning communication skills, and socialization.*
